Summary

Hardworking and passionate Web Development graduate with strong foundations in both front-end and back-end technologies. Skilled in creating responsive, user-friendly websites and web applications using HTML, CSS, JavaScript, and PHP. Fast learner and dependable team member eager to take on new challenges.

Projects

Graduation Project - Hotel Booking and Management Web App:

Designed and developed a two-sided platform for guests and hotel owners to register, search hotels, and manage bookings.

Created a responsive interface with HTML, CSS, Bootstrap, JavaScript.

Built a secure PHP backend using PDO, and input validation.

Implemented real-time availability checks and an interactive Leaflet map for hotel locations. Code: <https://github.com/RawanX99/booking>

Personal Portfolio Website: A responsive portfolio showcasing my skills, projects. Live: <https://rawanx99.github.io/portfolio/> | Code: <https://github.com/RawanX99/portfolio>

Internship

Digital Solutions Specialist Trainee – *Summer 2024/2025*

Built a job application workflow with dynamic forms, multi-stage approvals, email alerts, and SharePoint integration using Nintex.

Created Power Automate flows for applicant filtering and automated meeting reminders.

Skills

Web Development: strong background in fundamentals and programming languages such as HTML, CSS, JavaScript, PHP, SQL, Python, and Java, along with skills in problem-solving and error handling.

Automation & Microsoft Apps: Basic understanding in Power Automate, Nintex (Forms & Workflows).

Tools: VS Code, GitHub, Microsoft 365.
